Re Index of Hospitals & Special Care Facilities

Enclosed please find a copy of the Index of Hospitals and Special Care Facilities as of July 1984. Please be advised that this Index will no longer be printed in its entirety on an annual basis. Instead the Index has been designed so that the binding holding the Index together can be taken apart in order for new pages to be added and old pages to be deleted. Therefore, as of July of each year only those pages of the Index that required changes will be sent to you. It is then your responsibility to update the Index by taking out the old pages and replacing them with the new pages.

From your suggestions you will note that there have been some changes made to the Index. A contact person, an address and a telephone number have been added for each institution in the hope that it will make the Index a more valuable source of information.

If you have any questions, please feel free to contact me at 787-3163.

Explanatory Notes

A. This index is a list of all hospitals and special care facilities. It includes:

1. general hospitals
2. special care homes
3. extended care facilities
4. Indian hospitals
5. outpost hospitals
6. Indian nursing stations
7. nursing homes under permit
8. sanatoria
9. institutions for mental care

All facilities are listed alphabetically by location and do not necessarily reflect administrative jurisdiction.

B. "Rated beds" given in this index refers to rated bed capacities of the institutions listed. The rated bed capacity is the number of beds which, according to the Minister of Health, should be set up in the hospital. That is, the number of beds the institution can physically accommodate. There is no direct relation between this number and the number of patients served by the institution.

C. These beds are classified according to the following levels of care adopted by the Health and Welfare Joint Planning Committee (March, 1969). The levels are as follows:

Level 1 - Supervisory Care

Essentially independent but may need some guidance or supervision in the activities of daily living. Staff time for care averages 20 minutes per day.

Level 2 - Personal Care

Supervision and assistance may be needed with personal hygiene and grooming. Safely ambulant with or without mechanical aids or independent at wheelchair level. Usually continent. Able to feed oneself. Some supervision and direction may be required for behavioural problems. Staff time for care averages 45 minutes per day.

Level 3 - Basic Nursing Care

All degrees of supervision and assistance may be needed in the activities of daily living supplemented by basic nursing care. Supervision and direction may be required for emotional or behavioural problems which do not endanger life or property. Care at this level is directed by the attending physician and carried out under the supervision of R.N. and R.P.N. Staff time for care averages two hours per day.

Level 4 - Extended Care

All patient care is carried out under continuing medical supervision and all nursing care is under professional nursing supervision. Emergency, consultative medical services, and highly skilled technical nursing services must be readily available. Staff time for care averages more than two hours per day.

The following three classifications of care at Level 4 are:

a) Specialized Supervisory Care - where the emphasis lies on the management of advanced mental deterioration with its attendant problems. Physical conditions requiring continuing medical supervision are likely to coexist.

b) Supportive Care - where the emphasis lies on skilled nursing care and specialized techniques to arrest or retard deterioration.

c) Restorative Care - where the emphasis lies on a slowpaced restorative program designed to improve functional ability to the extent that care at home or at Level 1, 2, or 3 might be achieved.

Level 5 - Rehabilitation Care

Intended for persons with physical disabilities who require aggressive therapy by a rehabilitation team. Maximum benefit of restoring or improving function is likely to be obtained within three months. At such time as this occurs, the patient is transferred home or to another facility for a more appropriate level of care. Level 5 care is provided at the South Saskatchewan Hospital Centre, Wascana Division, Regina, and the University Hospital, Saskatoon, and is insured under S.H.S.P.

Level 6 - Acute Care

Intended for persons requiring 24-hour medical/nursing supervision for diagnosis and treatment in general hospitals.

D. Beds classified as "other" include beds for mentally retarded and alcoholic patients (including those provided for native people under the Federation of Saskatchewan Indians (F.S.I.) and the Native Alcoholism Commission (N.A.C.)).

E. An asterisk (*) in Level 4 column indicates that hospital will provide Level 4b care.

F. Beds under construction are denoted by the letter "C".

G. Beds approved but not yet under construction are denoted by the letter "a".

H. This index is updated annually for July.

I. All footnotes will be denoted at the end of this Index.

Summary and Analysis of Contents

1. Beds

	Total beds	Level 1-3	Level 4	Level 5	Level 6	Other
In use	17,433	7,968	1,223	118	6,899	1,225
Under Construction	318	308				10
Approved for Construction	(470)	(232)	(238)			
Total	17,751	8,276	1,223	118	6,899	1,235
Beds per 1,000 population*	17.3	8.0	1.2	0.1	6.7	1.2

2. Analysis of "Other" Beds

	Number	Beds per 1,000 population*
Mental retardation	875	0.9
Alcoholism	295	0.3
Federal hospitals	55	0.05
Total	1,225	1.2

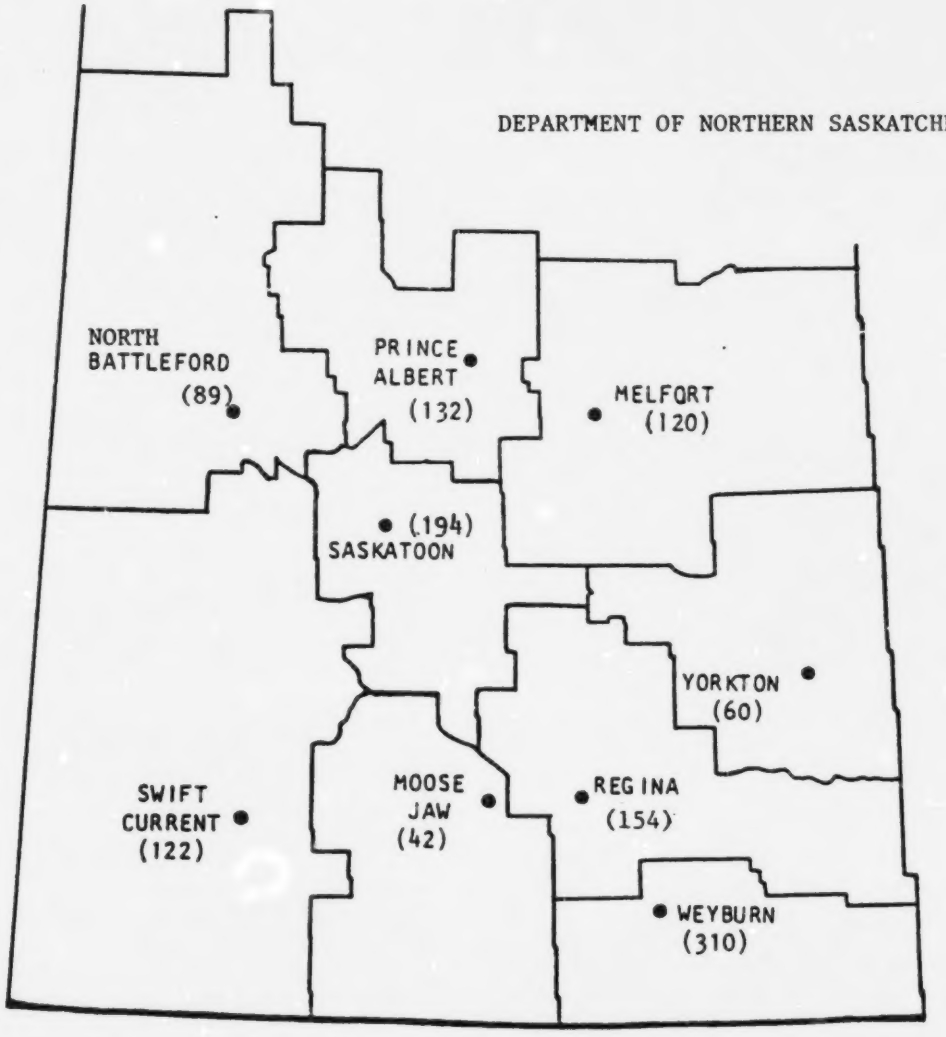
* Based on SHSP Covered Population, June 1984 - 1,028,965

- All figures as of July 1, 1984.

EXTENDED CARE HOSPITAL SERVICE AREAS

(LEVEL 4)

Prince Albert - Extended Care Unit, Victoria Union Hospital, Holy Family Hospital
Saskatoon - Extended Care Units, Saskatoon Sanatorium, and Frank Eliason Centre
Swift Current - Palliser Regional Care Centre
Regina - Wascana Hospital, A division of the South Sask. Hospital Care
Yorkton - Extended Care Unit, Yorkton Union Hospital
Melfort - Parkland Regional Care Centre
Weyburn - Souris Valley Extended Care Hospital
Moose Jaw - Extended Care Unit, Moose Jaw Providence Hospital
North Battleford - Battlefords Regional Care Centre



Numbers in brackets indicate the total number of Level 4 (Extended Care) beds in each community.
